

## Joshua A Shapiro

**Bryn Mawr College &  
Princeton University**

101 N. Merion Ave.  
Bryn Mawr PA 19010

201-777-0217

[jshapiro01@brynmawr.edu](mailto:jshapiro01@brynmawr.edu)

### RESEARCH INTERESTS

- Causes and consequences of genotypic and phenotypic diversity
- Genomic signatures of selection and demography
- Evolution of expression patterns and expression regulation
- Processes underlying population structure and speciation

### EDUCATION

**Ph.D. University of Chicago** Department of Ecology and Evolution 2007  
Dissertation: Selection and Structure in *Drosophila* Populations During the  
Process of Speciation  
Advisor: Dr. Chung-I Wu

**B.A. Williams College** Biology 1998  
*Summa Cum Laude* with Highest Honors  
Thesis: Population Structure and Gene Flow in Chorus Frog Tadpoles  
(*Pseudacris triseriata*) on North Government Island  
Advisor: Dr. David Smith

### RESEARCH EXPERIENCE

**Associate Professional Specialist** 2011-present

**Post-Doctoral Research Associate** 2006-2011

Lewis-Sigler Institute for Integrative Genomics, Princeton University

- Examined global diversity of yeast and nematodes using whole-genome polymorphism data.
- Conducted genome-wide association studies of gene expression variation in yeast.
- Developed and implemented analysis methods for SNP identification from multiplexed high-throughput sequencing and microarray hybridization.

Advisor: Dr. Leonid Kruglyak

**Graduate Research** 2000-2006

Department of Ecology and Evolution, University of Chicago

- Designed and analyzed large-scale sequencing study of *Drosophila* populations.
- Developed methods for the detection of adaptive evolution and population divergence.
- Examined gene expression changes in *Drosophila* species hybrids.

Advisor: Dr. Chung-I Wu

**Laboratory Technician** 2000

Department of Cell Biology, University of Virginia

- Oversaw maintenance of a transgenic mouse colony.
- Performed genetic analyses using standard molecular biological techniques.

Supervisor: Dr. P. Prabhakara Reddi

**Fulbright Scholar** 1999

Centre for Research on Introduced Marine Pests, CSIRO, Australia

- Conducted and analyzed field and laboratory studies of invasive marine organisms.

Supervisor: Dr. Craig Proctor

**Undergraduate Honors Research** 1997-1998

Department of Biology, Williams College

- Analyzed population structure of *P. triseriata* tadpoles using RAPD markers and tailfin morphology.
- Constructed a detailed map of the rock shore habitat using GIS software.

Advisor: Dr. David Smith

TEACHING  
EXPERIENCE

**Visiting Assistant Professor** Bryn Mawr College 2011-present

*Introduction to Genomics and Bioinformatics*

*Evolutionary Genetics and Genomics*

*Experimental Design and Statistics*

**Lecturer** Princeton University 2008-2009

*Genes, Health and Society*

**Guest Lecturer** Princeton University 2007

*Topics in Evolution*

**Guest Lecturer** University of Chicago 2005

*Population Genetics*

**Laboratory Instructor** University of Chicago 2002

*Ecology & Evolution*

**Teaching Assistant** University of Chicago 2001

*Grants, Publications & Professional Issues*

**Teaching Assistant** Williams College 1995-1998

*The Cell*

*Physiology*

**Teaching Assistant** Northfield Mount Hermon Summer Session 1995

*Marine Biology & Scuba Program*

- PUBLICATIONS** EC Andersen\*, JP Gerke\*, **JA Shapiro\***, JR Crissman, R Ghosh, JS Bloom, M-A Félix, L Kruglyak (2012) Chromosome-scale selective sweeps shape *Caenorhabditis elegans* genomic diversity. *Nature Genetics* doi:10.1038/ng.1050

\*Equal authorship contribution

**PRESENTATIONS** Chromosome-scale selective sweeps shape *Caenorhabditis elegans* genomic diversity.  
 Evolution 2011, platform presentation.

A survey of global *C. elegans* diversity by RAD-Seq.  
 2nd UK RAD Sequencing Meeting, August 2010, invited speaker

Selective effects of polymorphisms affecting gene expression in a global sample of *Saccharomyces cerevisiae*.  
 Annual Meeting of the Society for Molecular Biology and Evolution 2010, poster

Genome-wide association mapping of gene expression variation in *S. cerevisiae*.  
 Annual Meeting of the Society for Molecular Biology and Evolution 2009, poster

Association mapping of gene expression in *Saccharomyces cerevisiae*.  
 Gordon Research Conference on Quantitative Genetics 2009, poster

Analysis and mapping of gene expression variation in *Saccharomyces cerevisiae*.  
 Yeast Genetics and Molecular Biology Meeting 2008, poster

Gene expression variation in *Saccharomyces cerevisiae*  
 Evolution 2008, platform presentation

Population structure and evolutionary history of *Saccharomyces cerevisiae*.  
 Cold Spring Harbor Labs: The Biology of Genomes 2007, poster

Genetic differentiation between behavioral races of *Drosophila melanogaster*.  
 Drosophila Research Conference 2005, platform presentation

Changes in gene expression associated with *Ods* introgression-induced hybrid male sterility.  
 Drosophila Research Conference 2004, poster

**HONORS, AWARDS & AFFILIATIONS** Post-Doctoral Poster Prize, Annual Meeting of the Society for Molecular Biology and Evolution 2009

Howard Hughes Medical Institute Pre-Doctoral Fellowship in Biological Sciences 2001-2006

NSF Graduate Research Fellowship (Declined) 2000

Honorable Mention NSF Graduate Research Fellowship 1999

Fulbright Award (U.S. Student Program) Full grant to Australia 1999

Erastus C Benedict Prize in Biology, Williams College 1998
